Assessment of Sport Managers' Performance on Domestic and Local Sports of Pastoralism Community's Youths in Sistan & Balouchestan Province

By: Maryam Samareh Talebi

Abstract:

This research wants to answer this question: How important is the performance of sport's managers in the development of domestic and local sports of pastoralism community? Is the answer is such significant that the youths in pastoralism community give them up ?

A group of 350 of youths and 36 of sport's managers and staffs were chosen. The collected datae analyzed through "t-significant" , Variance and standard deviation tests. The results revealed some significant indices like :inattention to the sociocultural issues, planning, fiscal and credit problems and trainings have major affects on giving up such sports despite their compatibility with pastoralism community's culture and traditions.

There was no significant difference between two viewpoints of sport's managers and community's youths and both groups believed the main cause for giving up such sports is the inattention of the said indices.
